Profile

I consider myself a hard working individual, who always like to keep busy and pushing myself to learn new experiences.

Experience

Furlough Duration -> April 2020 - Present

During the Covid-19 outbreak I have been keeping myself occupied by increasing my knowledge in different areas. I have recently completed a Fullstack Web Development Course from Code Institute (<https://codeinstitute.net/>). I passed with Second Degree Honours. [View Certificate](#)

I have began to learn XCode and Swift that came with my MacBook Pro. I have used various YouTube videos to follow, study the program and the language. These include videos by [Matt Heaney Apps](#), [CodeWithChris](#). After I had completed the various videos I added them to my GitHub repository

During the 'Lockdown', I volunteered to stay overnight at The Shard Riverside Inn to allow the owner the opportunity to stay with his family whilst I continued to self study.

The Shard Riverside Inn & Mill at Conder Green -> March 2017 - Present

During my three years working for the Hurst family I have been promoted three times. I commenced as a waiter / bar-tender then I was promoted to the Bar & Accommodation Manager. Six months later I was promoted up-to Duty Manager and then shortly after that I went onto be the Stock Taker.

In each job role I have grown in confidence which has also increased my knowledge and experience. This has helped me to improve my working environment and my position in the company.

You can view more details of my CV at, <https://sjcv.herokuapp.com>

Some of my ideas that have increased business efficiency:

- Create a better way to cash up his tills.
- Using the televisions as advertising mediums, powered by a raspberry pi.
- Creating a system that can track the progress of weddings and meetings.

Achievements while working at The Shard Riverside Inn & The Mill at Conder Green:

- I created a simpler way for the owner to keep track of his end of day sales.
- Creating spreadsheets to make the business more efficient.
- A weekly wet stocktake for both hotels, this was originally done by an outside auditor.
- I checked the stock and comprised a report to identify any discrepancies in the gross profit percentage this also decreased the wastage and increased the profit by

I have designed a spreadsheet to highlight, all revenue streams within the business this also includes the new wedding revenue.

Developing new ideas on how to promote my current place of work through the use of internal advertising.

I have some knowledge of Linux through Raspberry Pi's and Ubuntu Linux.

I have created a database to track what 800 individuals would like from a six option menu. Which covers breakfast, lunch and dinner. Based on a four-week cycle. This would consolidate every mans choice into an easy readable report, which saved time and money.

A Level - Computing

- Information Communication Technology

AS Level - Electronics

- Computing

- Information Communication Technology

Montgomery Secondary School - 2002

GCSE 9 in total -

- Maths, Science, English, German, Media Studies, IT

School Work Experience

I did work experience at the four-star Pembroke Hotel, Blackpool in the account's office. Whilst I was there a problem occurred with the supply of wine. I solved the problem by producing a smaller wine menu with the wines that were currently available. The Hotel Manager was very grateful and I received a voucher to show their appreciation.

Skills

I have an eye for detail.
Work well as part of a team or on my own.
Hardworking.
Always trying to improve myself

Interests

Anything to do with computers, I have a VR Quest Headset.
A few Raspberry Pi's.
I have helped a people with computer related issues.
I like to keep busy.
